Sir:

Applicants filed a continuing application to serial number 10/142,957 (now issued patent US 6,554,857) to prosecute the non-elected claims 71-87 (Now serial number 10/627,114; Attorney Docket No. P8794.05 c2). Contained with the submitted documents was also a request to use the prior submitted sequence listing. Applicants request to use the former sequence listing was submitted in error.

Applicants request that the prior request to use the former sequence listing be withdrawn and thereby further submit that the need to comply with the present requirement has been rendered moot and respectfully also request the notice to submit a sequence disclosure be withdrawn.

In the alternative should applicants first requests be denied, they then

respectfully request an extension of time be granted under 37 CFR 1.136(a) to either appeal the denial of their first request or to submit the requested sequence listing. Applicants authorize the office to charge their Deposit Account No. 13-2546 any necessary fees for the requested extension of time should their first requests not be granted.

Respectfully submitted,
